# Coalition protects your business by preventing incidents before they occur

We offer a full suite of security apps including 24/7 security monitoring, automated threat and intelligence alerts, DDoS mitigation, security benchmarking, ransomware protection, employee training, patch reminders, and more.

Coalition App Platform

Ransomware protection, DDoS mitigation, automated threat & intelligence alerts, patch management and more—included with each policy at no additional cost. **Our apps include:**

Credential Monitor
We alert you when your employees' credentials, passwords, and data have been compromised in 3rd party data breaches.
Patch Manager
We continually scan your systems for out-of-date software and vulnerabilities, and alert you immediately if we find something.
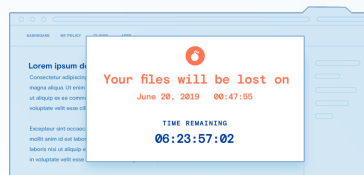

Threat Monitor
We constantly monitor for new risks, alerting you before damage is done.

DDoS Mitigation
A denial of service attack can cost a small or medium business over $200,000/hour. Our provided DDoS mitigation service can easily be set up in under 4 minutes.

Ransomware Prevention
Ransomware literally holds your computers and data hostage. Our software protects your business against 99% of known ransomware.

Security Awareness Training
We alert you when your employees' credentials, passwords, and data have been compromised in 3rd party data breaches.
